Education

New York University, College of Arts and Sciences, New York, NY   May 2023
Bachelor of Arts, Computer Science
- *Relevant Coursework:* Data Structures and Algorithms, Data Science, Object Oriented Programming, Applied Internet Technology, Software Engineering, Digital Tools

Experience

Front-End Developer Intern   Remote
L'AMARUE   May 2022 – Sept. 2022
- Planned, developed and tested different components of the website
- Provided direct support to and collaborated with Co-Founder and CEO on multiple technical projects
- Designed and established user-friendly and informative websites aimed at increasing website engagement and enhancing brand awareness
- Devised and implemented SEO strategies to improve Google rankings

Social Media Curator and Intern   New York, NY
L'AMARUE   Nov. 2019 – Feb. 2020
- Created and edited visual content for publication on official online media using tools such as Photoshop
- Provided user experience feedback to CEO for website development and customer service; communicated with CEO to determine the best course of action and future development

Projects

Talkman | https://talkman-app.herokuapp.com/   Nov. 2022 – Dec. 2022
- Designed and developed a full-stack music diary web application using HTML, CSS, and Express.js
- Built and implemented features such as user authentication using MongoDB and Passport.js
- Incorporated Spotify API to allow users to create entries and preview songs from Spotify
- Devised user stories, wireframes, and website design to create an easy user experience

NYU Photobooth | https://nyu-photobooth.herokuapp.com/   Dec. 2022
- Created containerized full-stack web application for NYU students to share experiences unique to on campus life using user-generated photos and randomly generated captions
- Oversaw front-end development and lifecycle development including developing wireframes, performing website design, delegating user stories, leading daily standups, supervising deployment and testing
